# ABOUT US

*We help technology companies source hard-to-find, long lead time and obsolete components in wide variety of industries.*

”

***Every year, technology companies lose hundreds of millions of dollars due to supply chain disruptions and vital component shortages.***

We founded Alectrio to fulfil your supply gaps and ultimately help your company reduce costs and decrease time to market by securing hard-to-find, long lead time and obsolete components through our wide and reliable global network.

With more than 25 years of industry experience, access to over 350 suppliers, and more than 500,000 components, our experts are available 24/7 across five global offices to help you meet your requirements.

# OUR PROMISE

## BRIDGE SUPPLY GAPS

With increased demands and shortages in supply, major suppliers may not be able to fulfil all your requirements on time. We ensure you get those last remaining components so you can remain on schedule.

## REDUCE COSTS

Because of our exclusive relationship with our suppliers, as well as our large annual volume of orders, we are able to get highly discounted rates via our agency discount which we extend to you as our customer.

## SHORTEN LEAD TIMES

With instant access to any component in our extensive network, as well as our robust logistics solutions, we are able to reduce lead times and increase speed to market, saving you millions in the process.

## ASSURE QUALITY

While competitors might fail to send the right components or fail to send you any parts all together, we act as your eyes on the ground and make sure all components meet your strict QC requirements before shipping.

# Your Trusted Global Supply Chain Partner

**25+**

Years Experience

**350+**

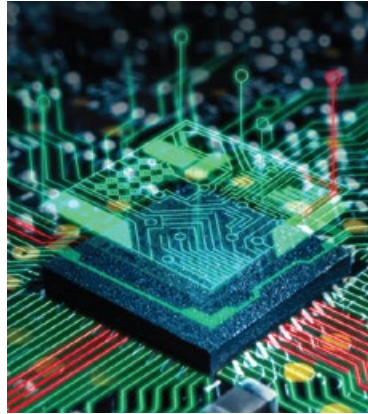

Accessible Suppliers

**500k+**

Components Available

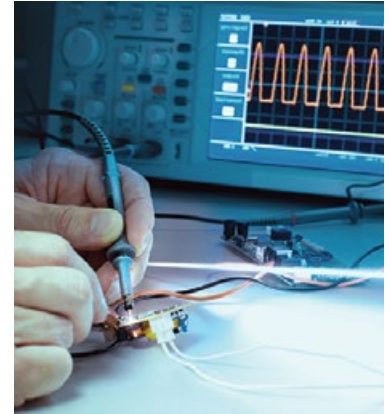

”

*We pride ourselves on our ability to tailor make the purchasing experience for our clients, relieving them in times of part shortages and price volatility through competent and intelligent procurement strategies.*

## COMPONENT SOURCING

With our extensive network of vetted manufacturers and suppliers, we are able to source even the most hard to find components.

## INSPECTION & TESTING

We offer peace of mind by testing and inspecting the parts to make sure they meet your QC requirements before they are sent to you.

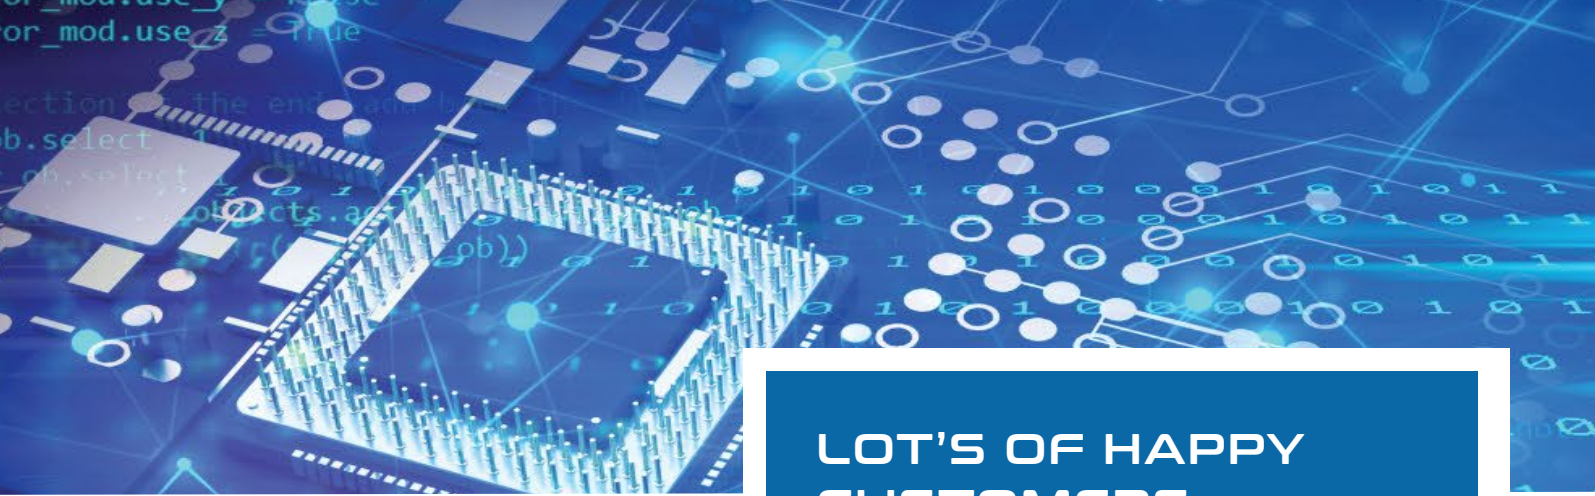

## CYBER SECURITY

For more advance component systems, we offer a full range of cyber security solutions from testing to vulnerability management and more.

## GLOBAL LOGISTICS

We guarantee your parts are delivered to you quickly and safely via our reliable and hassle free international logistics solutions.

# Our Clients

We are honored to be a trusted vendor for some of the top companies in various established and emerging industries. We plan on growing our network of happy customers by delivering results quickly and under budget. Here are just some of our loyal clients:

## LOT'S OF HAPPY CUSTOMERS

*"It is always a great pleasure to work with Alectrio. The global expert team in Alectrio truly understand our pain points on a deep level and are able to resolve our complex requirements in a short period of time. The sense of responsibility they have to ensure delivery quality is phenomenal. It is always a comfort when Alectrio is part of our program."*

# PRODUCTS

With exclusive access to more than 500k+ products from leading manufacturers and approved vendors around the world, Alectrio is able to help you secure components that are already allocated, in short supply or only available with longer lead times.

## Components Include:

Capacitors  
Circuit Protection  
Diodes and Transistors  
Displays  
Drivers & Interfaces

Electromechanical Switches  
Electronic Switches  
Interconnects  
LEDs  
Memory Components

Microcontrollers & processors  
Optoelectronics  
Crystals and Oscillators  
Power Supplies  
Programmable Devices

Relays  
Resistors  
RF & Microwave  
Sensors  
Cables & Wire

EXECUTIVE DIRECTOR  
ALECTRIO

# MESSAGE FROM OUR DIRECTOR

## MISSION

We strive to supply high-quality hard-to-source electronic and IT components as quickly, reliably, and affordably as possible and solve our clients supply chain challenges in times of overwhelming global shortages.

## VISION

To become to most trusted global supply chain partner of technology manufacturers; from sourcing rare parts and quality testing to providing comprehensive logistics solutions, and everything in between.

## STANDARDS

We pride ourselves on maintaining the highest levels of customer service while delivering tested, high-quality products that fulfill the criteria of the most stringent manufacturing and assembly lines in a vast variety of fields while continually satisfying industry, legal and regulatory, requirements.

We know how challenging sourcing rare components can be; especially when there are shortages in the market which can cause expensive delays on crucial projects.

Where competitors are slow to deliver or don't at all, we go above and beyond for you, our customer.

We like to think of ourselves as experts in finding parts that nobody else can and getting them to you as quickly and as hassle-free as possible.

Let us handle your sourcing requirements, so you can have peace of mind, and focus on what you do best.
